

July 17, 1942

Mr. Emil C. Gradert, Superintendent
Water Division No. 4
Robertson, Wyoming

Dear Sir: REL: BURNTFORK DISTRIBUTION

A petition has just been filed by various water users on Burntfork for the appointment of a water commissioner in Utah to distribute the water of Burntfork and tributaries during the remainder of this season.

In response to this petition, I have called a meeting for July 22, 1942, at 2 o'clock p.m. at the Burntfork school house. In view of the fact that Burntfork is an inter-state stream and most of the lands irrigated are located in Wyoming, I think it would be advisable for you to attend the meeting, if possible. My file indicates that in the past you have participated in working out a schedule of water rights, and I would very much appreciate your cooperation at this time.

Yours very truly,

Ed. H. Watson
